

Lucas Leonel Galardo Euler

Senior generalist developer · Games · Web / SaaS · Systems San Telmo, Buenos Aires, Argentina · Remote
[Portfolio](#) · [GitHub](#) · [LinkedIn](#) · [All links \(Linktree\)](#)

Public short version. I deliberately left out direct contact details (phone / email) to avoid exposing them to bots and scrapers. For the **full CV with detail and contact**, reach me on [LinkedIn](#) or via [Linktree](#) — or ask when applying.

Profile

Developer with **10+ years** of experience. Generalist: I land in any domain and reason about the problem before committing to a stack. I move across **games, web/SaaS, embedded systems and technical education**, both as a developer and as a **tech lead**. Top of class (**9.69/10**) in Virtual Simulator Design & Programming (Da Vinci).

What I do

- **Games / Unity** — gameplay, physics, graphics (URP, Shader Graph, HLSL), tools and editor plugins, with the ability to drop to **low-level** work (C++, DX11, Assembler).
- **Web full-stack / SaaS** — React / TypeScript + Supabase / PostgreSQL, integrations (Discord, Telegram, WhatsApp, LLM), CI/CD; Tech Lead role.
- **Embedded / IoT** — C and Assembler (Freescale), Arduino, ESP8266, Raspberry Pi.
- **Technical education** — 3,400+ students trained; author of Unity curricula.
- **Process / tech-lead** — I design my own development-process systems (task lifecycle, branch governance, context engineering) and AI-assisted development with custom tooling.

Skills (summary)

C# · C++ · TypeScript · HLSL · SQL · Unity (URP, Burst, Jobs, Shader Graph) · React · Node.js · Supabase / PostgreSQL · DirectX 11 · Git / CI-CD · Docker · Linux

Experience (summary)

- **Nexio** — Tech Lead / Product Engineer. Multi-channel SaaS platform in production ([nexio.land](#)). 2026 – Present.
- **Somos Leyenda** — Unity technical consultant (audits, partner track). 2025 – Present.
- **Lifecole** — Unity instructor / developer (3,400+ students). 2021 – Present.
- **Freelance** — Custom games and systems development. 2015 – Present.
- **Wilson Champ S.R.L.** — Embedded development + full-stack web. 2015 – 2021.

Public projects

- **La Maldición: Héroes de Lorthar** — competitive card game, playable WebGL build: [itch.io](#)
- **Common-Package** — my own library of ~20 reusable Unity packages.
- **Portfolio + shader playground** — [agaskhan.github.io](#)

Education

- **Virtual Simulator Design & Programming** — Da Vinci (2021–2025) · Top of class, GPA **9.69/10**.
- **Shaders for Video Games** — Image Campus (2025).
- **Electronics Technician** — Colegio San José A-355 (2008–2014).
